

# MAHAR TOOL SUPPLY COMPANY

## Regrind/Resharp Program

Regrind, Resharpen, Coating, Repair, & Management of Round  
Tools & Related Tooling

- **Regrind:** Extend the life of round tools for a greater cost savings.
- **Coating:** Recoating resharpened tools returns tool to a “like new” state.
- **Management:** Mahar Tool Supply can manage your inventory, utilizing regrinds versus new tooling to reduce your spend, & refilling your float level with new tools once regrinds reach their total life to avoid machine downtime.
- **Repair:** Mahar Tool Supply offers repair services on cutter bodies, fixtures, gages, spindles, & other related tooling needs to save money on durable goods.
- **Support:** Mahar Tool Supply currently has Regrind/Repair programs in place supporting our customers & we have expert Cutter Grinders & Machine Programmers on staff to support your needs.
